

HEAVY DUTY STAKE KIT INSTRUCTIONS

Designed to be used with our Z-Shade Instant Canopy.

PACKAGE INCLUDES: Set of (4) heavy duty stakes, hardware and storage bag.

HEAVY DUTY STAKE KIT SET UP

Please read each step before you attempt to set up. Save these instructions for future reference.

Set up your Z-shade canopy in the desired location. Determine where to place your first stake.

STEP 1: Carefully, drive the stake into the ground with hammer, make sure to leave one of the holes in the stake about an inch from the ground – to line with the hole from the leg of the shelter.

STEP 2: Line up stake (hole) with canopy leg (hole). Once the holes are aligned, insert the **bolt & spacer** through the stake into the Z-Shade canopy leg.

STEP 3: Next, tighten **nut & washer** firmly to ensure the bolt is secured with the stake and the leg of the canopy.

Repeat each step for the rest of the following stakes.

Store stakes and hardware in storage bag when not in use.

INFORMATION

1. Always stake or weigh down your canopy. Do not use in any potentially windy or rainy weather. Wind and rain can damage your canopy and may also result in injury to you or others. Therefore, do not rely on the canopy for protection in heavy or prolonged rain storms.
2. Use caution when handling the Z-Shade frame. Avoid pinching hands or fingers when frame opens or closes.
3. Handle your Z-Shade canopy with care to avoid rips and tears. Do not store canopy with stakes.
4. The canopy is designed as a temporary sun shelter. Do not leave unattended canopy up for extended periods.
5. Do not use canopy in a lightning storm or build fires under canopy.

⚠ WARNING: Keep all flame and heat sources away from all product fabrics. These fabrics meet the flammability requirements of CPAI-84 and NFPA-701 specifications. The fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the fabric may render the flame-resistant properties ineffective. This product contains TDCPP and/or TCEP, flame retardant chemicals known to the State of California to cause cancer, birth defects or other reproductive harm or both.
